# Introduction

## This User Guide

This document covers the tokens and CSS supported by BrokerWebSuite 5.x.

For information about module design reference the “**Designer Guide.pdf**” document.

## Locating Tokens and CSS

**This document inventories the tokens and css supported by BrokerWebSuite 5.x.**

Table menus describe the location of the token or css, in this example:

[WebSuite\\_RealEstate - mView \(List/Detail View\) – Tokens](#)

First portion displays the location of the module folder.

[WebSuite\\_RealEstate](#)

Second portion displays the name of the control and the view position displayed.

[mView \(List/Detail View\)](#)

Third portion displays the type

[Tokens](#)
